PROFILE

Junior UI/UX designer with experience in customer-facing roles and a UI/UX internship. I use Figma to create wireframes, prototypes and reusable components. Seeking junior UI/UX opportunities, also open to junior Product Designer roles, with an interest in front-end development.

SKILLS

Design: Figma, wireframing, prototyping, responsive layouts, design systems, reusable components, survey research and usability testing.

Front-end foundations: HTML, CSS, JavaScript, React, Git and GitHub.

AI tools: ChatGPT and Copilot.

EXPERIENCE

UI/UX Intern | Gaddr | 2026

Standardised search and profile components in an existing Figma design system, replacing individually assigned colours, shapes and typography with shared defaults. Work reviewed by the lead designer.

Customer Care Assistant | Marshmallow | 2026 - Present

Support customer retention through clear communication, problem-solving and understanding customer needs; monitor service-quality and ticket-handling metrics.

Support Associate | Wolt Hungary | 2024 - 2026

Resolved customer enquiries in a fast-paced environment, balancing empathetic communication, response efficiency and service quality.

Earlier experience: Facilities Administrative Assistant | PAPPAS KFT | 2023 - 2025

English Teacher | Self-employed | 2021 - 2022

SELECTED PROJECTS

Household Budgeting App | Self-directed course project

Tested a low-fidelity Figma prototype with approximately 4-5 participants over two rounds. Used feedback to add home-screen expense entry and standardise back navigation.

Portfolio Website | Visual design and AI-assisted implementation

Defined the visual direction and edited images and content for an Astro website. Continued my mentor's initial code using ChatGPT and Copilot, and ran AI-generated unit tests.

Pinterest Mobile Redesign | Self-initiated UI/UX concept

Surveyed 20 respondents and organised feedback in mind maps. Created personas and a Figma prototype exploring clearer content labels, simplified navigation and account linking.

EDUCATION & TRAINING

Google UX Design Professional Certificate | Google / Coursera | Completed 2025

Figma UI UX Design Essentials | Udemy | Completed 2025

Meta Full Stack Developer: Front-End & Back-End from Scratch Specialization | Meta / Coursera | In progress

Intermediate to Advanced: Professional Figma UI / UX Design Specialization | Coursera | In progress

Architectural studies | Budapest University of Technology and Economics | 2022 - 2025
